Book Condition: New. Publisher/Verlag: Springer, Berlin | Thirty-four years have elapsed since the publication of the late Professor P. Maheshwari's text, An Introduction to the Embryology of Angiosperms, a work which for many years served as an invaluable guide for students and a rich source book for research workers. Various texts dealing with sections of the broad spectrum of topics encompassed by Maheshwari in his book have appeared in the interim, but a compendious modern work dealing with the whole field has been lacking. This present volume splendidly meets the need, and it is altogether fitting that Professor B. M. Lohri, long an associate and close colleague of Professor Maheshwari and himself a prolific contributor to the subject, should have undertaken the task of editing it. When Maheshwari wrote, it was still feasible for one author to handle the subject, but today even someone with his fine breadth of vision and depth of understanding could not, alone, do it justice. So the effort has to be a collaborative one; and Professor Lohri's achievement has been to bring together a team of authoritative collaborators, assign them their responsibilities, and put them to work to produce a text as integrated in its treatment as the diversity of the subject would allow. The product vividly illustrates the advances that have been made in the study of angiosperm reproductive systems in the last 30 years, and the book is surely destined to become the new standard for student and researcher alike. | 1 Embryology: Then and Now.- 1.1 Introduction.- 1.2 Techniques to Study Embryology.- 1.3 Embryo Sacs in Anthers.- 1.3.1 Leptomeria.- 1.3.2 Calotis.- 1.3.3 Hyacinthus.- 1.4 Fritillaria Type of Embryo Sac.- 1.5 Unusual Embryological Features in Loranthaceae.- 1.5.1 Ovary-Ovule Complex.- 1.5.2 Embryo Sac.- 1.5.3 Endosperm.- 1.5.4 Embryo.- 1.5.5 Reproductive Calendar in Struthanthus vulgaris.- 1.6...
